

## Project Profile :

Long a fixture in Harrisburg selling Ford Automobiles and trucks, Hoffman Ford selected Environmental Interiors to provide design services and furniture for the upgrading of their showroom on Jonestown Road. Using the Ford company royal blue as a starting point, the color scheme was developed by adding gray and taupe for the patterned carpet, tiled areas, panel fabrics and upholstery. Photographs and memorabilia covering 75 years of business were displayed to tell the Hoffman story. Glass panels in the sales area create privacy for transactions but also allow for a feeling of spaciousness.

## Product Profile
