Interiors** Incorporated
OFFICE FURNITURE
MADE IN USA

Dauphin County CMU

S. Cameron St, Harrisburg

Project Profile :

Environmental Interiors worked closely with the landlord and the tenant at S. Cameron St to develop a building that would be aesthetically pleasing to the customers, attract dedicated employees and hold up to the rigours of public use. The Dauphin County Case Management Unit is a non-profit organisation dedicated to helping people become connected and remain connected to their community. A warm palette was chosen by the design team to create a soothing environment and minimise the appearance of wear and tear that the facility receives. The landlord and tenant ultimately received a building that exceeds their expectations while keeping within their budget.
